Instructions for downloading CompBase and PaveComp from Internet

Please note that Windows7 users require administrator rights to be able to install and run these programs. The program must also be selected to "Run as Administrator" to function properly.

- 1. Go into http://www.ihcc.nu
- 2. Select CompBase or PaveComp
- 3. Read the **Disclaimer and legal notice** and select <u>agree</u> or <u>disagree</u>. If you select to disagree, the download process will be aborted.

4. Fill in all information, at least all mandatory. Select <u>OK</u> and continue. If you select <u>Cancel</u> the download process is aborted.

Download the current version by clicking the link below. <u>Download</u> When the download is complete, please confirm by clicking the correct button below. You will then receive an invo	Compase
The download was successful The download failed	Bas
After you have executed the setup-program, you will run PaysCompor CompBase. The security system will require code-exchange before you can go to work with a program. For your code exhange, go to www.lncc.nu on the int NOTE! DO NOT CLOSE THE CODE A SCREEN BEFORE THE CODE EXCHANGE HAS SUCCEEDED.	Pave Comp

- 5. Select <u>Save</u> to the computer. (This window depends from different **Windows** versions). The download can take some time depending on the transfer rate. CompBase (21 MB) and PaveComp (16 MB).
- 6. After the download is finished, select <u>successful</u> or <u>failed</u>. If you do not do this selection it could be a problem to get the serial number via e-mail.
- 7. Finally <u>Logout</u>.

After the procedure above we will send you a serial number, it can sometimes take a couple of days due to weekend etc.

For some windows XP you have to install the program as administrator. Do **not** start the program as administrator. Start the program and execute the code exchange as your self.

Win7 users must have administrator rights to their computer. This is required both for installation and for running the program. You must set the program to run as administrator before making the code exchange. Do the following:

Locate the program icon under Start/All programs. Right click the Icon and select "Properties"
